

## Sir Christopher Pissarides

2010 Joint Nobel Prize Winner for Economics

*"An authority in the field of economics of unemployment"*

Sir Christopher Pissarides holds the Regius Chair of Economics at the London School of Economics, the Chair of European Studies at the University of Cyprus and he co-chairs the Institute for the Future of Work, based in London. He specialises in the economics of labour markets, economic growth and structural change, especially as they relate to market frictions, where his work has been especially influential.

### TOPICS:

- Macroeconomics of Labour Markets
- Structural Change
- Economic Growth Indicators
- Comparative Economic Performance
- The Economics of Unemployment
- Labour Market Policy

### LANGUAGES:

He presents in English.

### PUBLICATIONS:

- 2023** Quantum Governance: Rewiring the Foundation of Public Policy
- 2017** Beyond Austerity: Reforming the Greek Economy
- 2011** Job Matching, Wage Dispersion and Unemployment (Iza Prize in Labour Economic Series)
- 2009** Labour Market Adjustment: Microeconomic Foundations of Short-Run Neoclassical and Keynesian Dynamics
- 1990** Equilibrium Unemployment Theory (now in its second edition)

### IN DETAIL:

In 2010 Sir Christopher was awarded the Nobel Prize for his work on the labour market, sharing it with Dale Mortensen of Northwestern University and Peter Diamond of MIT, and in 2005 he became the first European economist to win the IZA Prize in Labor Economics, sharing it again with his collaborator Dale Mortensen. In the last decade he has worked extensively on the employment implications of automation and artificial intelligence and on the emergence of China as a global economic power. He has written extensively in professional journals, magazines and the press and his book Equilibrium Unemployment Theory is an influential reference in the economics of unemployment that has been translated into many languages.

### WHAT HE OFFERS YOU:

Sir Christopher provides specialist analysis of the economics of unemployment, labour-market theory, labour-market policy and growth and structural change. He explains the importance of structural change and economic performance as indicators of the strategies required to stimulate economic growth.

### HOW HE PRESENTS:

Sir Christopher explanations are clear, informative and expertly delivered, making him one of the most sought-after Nobel Laureates.
