- Artificial Intelligence - Humanity's Most Serious Challenge
- How Dangerous is Autonomous AI?
- China/USA - The Great AI Race
- How AI is Revolutionizing Modern Medicine
- Middle East - Aftermath of the Arab Spring

LANGUAGES:

He presents in English and German.

PUBLICATIONS:

2017 Evolution Without Us

2017 High-Tech Espionage

IN DETAIL:

Between 1973 and 1994, Jay worked as an Investigative Reporter with NDR German Television, where he covered environmental scandals, East-West espionage and organised crime, as well as serving twice as a Combat Correspondent in Iraq. Following this, he joined ARD German Television as the Executive News Director of Tagesthemen, one of Germany's foremost daily network news magazines. With a distinguished voice, in 2004, Jay became a voice talent for leading brands before founding Airtime Dubai, a media company serving Arabic broadcasters in the MENA region. Additionally, he serves as the Executive Producer of An Kathab, a program reaching 30 million viewers weekly on Al-Jazeera.

WHAT HE OFFERS YOU:

Jay Tuck has deep knowledge on matters of modern warfare. As a US defence expert and a combat correspondent, Jay speaks about the threat of AI and highlights the competition among nations to lead the AI race.

HOW HE PRESENTS:

Jay Tuck is an internationally acclaimed speaker whose lively talks are accompanied by exclusive video and photographs.
