- Cyber and Internet Ethics

LANGUAGES:

She presents in English.

IN DETAIL:

Joanna is the founder and CEO of Precognition, a startup that empowers leaders in this AI-centric era to anticipate the future and build solutions for a better world. She was previously CEO of BenevolentAI, where, under her leadership, the company grew from a startup to a clinical-stage drug discovery company and developed an industry-leading AI platform that translates the complex language of biology into novel insights that lead scientists to new discoveries. From 2013-2018, Joanna served in the UK Government as the first-ever Minister for Internet Safety and Security. She also served as Digital Economy Advisor to the Prime Minister, UK Ambassador for Digital Industries, and Special Representative on Internet Harms and Crimes.

WHAT SHE OFFERS YOU:

Joanna Shields firmly believes that technology companies can power economic development and by establishing a new paradigm of international cooperation and collaboration between governments, industry, NGOs and experts and creating an atmosphere of willingness; we can make real change and improve lives.

HOW SHE PRESENTS:

Joanna is very practical in putting new ideas into practice. Her high content tailored presentations are always well received and deliver in her highly professional style.
