PUBLICATIONS:

2021 Taking on Gravity: A Guide to Inventing the Impossible from the Man Who Learned to Fly

IN DETAIL:

Richard, a former Royal Marine reservist and the visionary behind Gravity Industries, has defied gravity's limits with his jet-powered suit. His dream was to revolutionise human flight by melding mind, body, and cutting-edge technology. The UK-based inventor discarded conventions, powering his suit with six compact yet mighty jet engines. Before taking flight, he spent 16 years as an Oil Trader at BP, crafting groundbreaking business deals worldwide, from Azerbaijan to Mozambique and Russia. He forged trade relations with numerous nations, exhibiting his talent beyond commerce. In the corporate sphere, Browning's impact goes beyond his jet suit. He's a driving force in investing in emerging technologies, boldly exploring, and scaling visionary business concepts. His journey is a testament to resilience, innovation, and the pursuit of the extraordinary.

WHAT HE OFFERS YOU:

Richard's inspiring story, vision for the future, and passion for pushing the boundaries of human potential have captivated audiences worldwide, elevating him to a highly respected and influential figure in the field of innovation and technology..
